Good morning Rob. Is this the latest briefing sheet on LOOP? The General Counsel is coming next week and we want to have an informational briefing on it. Thanks.

Subject: LOOP - "introduction" meeting with RA/DRA - Monday, April 2

Importance: High

The meeting with LOOP is now set for Monday, April 2, in Baton Rouge. Location of the meeting to be determined.

Now we need to provide Anne and David with the latest background information that they will need. I doubt that they are to debate the fine points of NEPA or federal jurisdiction, but we do need to develop the latest information.

Attached are the latest versions of the Air and Water briefing sheets and my "short version" of a summary of key points. But these need to be reviewed and revised immediately. For example, they were written before LOOP's outside counsel alleged that EPA had no jurisdiction for the facility under the Clean Air not the Clean Water acts. And now that everyone is looking at Subpart Y MACT requirements for Marine Terminals with vessel loading operations and LOOP starting loading crude carriers in February (second tanker filled this week), they probably fall under requirement for their 3 mooring buoys.

Can everyone get back to me by NOON tomorrow (Thursday, March 29) with suggested edits using redline/strike? Sorry for the short fuse.
